Question

What is the Storage Calculator and how can I obtain this tool?

Answer

The VideoManager Storage Calculator is a utility that enables you to design LDVR and LNVR camera configurations to provide an estimated network utilization and required disk space necessary to record for a particular number of days.

The VideoManager Storage Calculator can be downloaded here: <http://Invr-calc.lenel.com/>.

Applies To

LNVR (All versions)

LDVR (All versions)

Additional Information

None
