Viewing the capabilities of IP cameras that were integrated through the OAAP program

Procedure Steps

The capabilities files for IP cameras that were integrated to the Lenel NVR and certified by Lenel can be found at the Lenel Web site. The capabilities files are updated upon successful cameras integrations. The name of an OAAP IP capabilities file is '*OnGuard version* OAAP IP Camera Compatibility Chart'.

The files can be found in Partner Center by selecting the applicable OnGuard version and Video Tools as the type of download.

Applies To

Lenel NVR (All versions)
OpenAccess Alliance Program (OAAP)

Additional Information

None
