

What ports are used for OnSSI NetDVMS installations?

Last Modified on 10/06/2022 4:14 am EDT

Question

What ports are used for OnSSI NetDVMS installations?

Answer

Ports Used for NetDVMS are:

Ocularis Base Port Requirements

- IIS PORT: 80 Inbound
- IMAGE SERVER PORT: XXXX* Outbound
- MESSAGE QUEUING PORT: 1801 Inbound/Outbound

NetDVMS Recorder Port Requirements

- IMAGE SERVER PORT: XXXX* Inbound
- MESSAGE QUEUING PORT 1801 Outbound
- CAMERA SPECIFIC PORTS: 80, 20, 21,25, 554, Outbound
(Depends on manufacturer)

Ocularis Client Port Requirements

- CONNECTION TO OCULARIS BASE IIS Port: 80 Outbound
- VIDEOWALL PORT: 9010 Inbound/ Outbound
- IMAGE SERVER PORT: XXXX* Outbound
- MESSAGE QUEUING PORT: 1801 Inbound/Outbound
- VIDEO PUSH PORT: 7007 Inbound/Outbound

* This is a user defined port, however for OnGuard Integration, this port should be 8080

Applies To

SkyPoint
