

Segment ID in FormsDesigner User Guide

Last Modified on 10/06/2022 4:15 am EDT

Product Name

FormsDesigner in OnGuard 7.3

General Information

In the FormsDesigner User Guide and online help that ships with OnGuard 7.3, the Badge table (Appendix A, Table Layouts) includes the SEGMENTID field description. This is incorrect. The Badge table should not include SEGMENTID.

Customers who have created custom scripts that include references to SEGMENTID for the Badge table layout should modify those scripts to remove SEGMENTID references.

Applies To

OnGuard 7.3
