

Why can't I close the Main Alarm Monitor window in Alarm Monitoring?

Last Modified on 10/06/2022 4:15 am EDT

Question

Why can't I close the Main Alarm Monitor window in Alarm Monitoring?

Answer

This behavior is by design. The Main Alarm Monitor window cannot be closed.

If you do not want the Main Alarm Monitor window to display when logging into Alarm Monitoring, you can minimize it, then select **Save Settings Now** from the **Options** menu.

From now on, when you log into Alarm Monitoring, this and any other saved settings will be loaded.

Note that each individual OnGuard user can have different settings customized and saved.

Applies To

OnGuard (All versions)

Additional Information

None
