Question

Where do you disable the ability for a user to give an "Allow 1 free APB pass" in Alarm Monitoring?

Answer

The ability for an OnGuard user to give an "Allow 1 free APB pass" in Alarm Monitoring is controlled by the **Badge Modify** permission.

Badge Modify location:
Users > Cardholder Permissions Group > Badge > Modify .

Unchecking the Modify box removes the ability for that user to give an "Allow 1 free APB pass" in Alarm Monitoring.

Applies To

OnGuard (All versions)
