Error: Could not locate class-to-execute: Upgrade_6_0_EnterpriseAllocation. Execution failed.

Last Modified on 10/06/2022 4:17 am EDT

Symptom

The error:
DBSETUP_CTE_LOG is missing
May display when updating OnGuard 6.0 to 7.0 or higher in Database Setup.

Resolution

Execute the following query against the AccessControl database:

insert into DBSETUP_CTE_LOG (OG_BUILDID, CTE_NAME, TABLE_NAME) values ('50148003', 'Upgrade_6_0_EnterpriseAllocation', 'VISIT')

Applies To

OnGuard 6.0
OnGuard 7.x

Additional Information

None
