Silent Installation of OnGuard 8.1 Fails When Installing Subset of Default Features

Last Modified on 10/06/2022 4:17 am EDT

Symptom

If you modify the **SetupAssistantConfig.txt** file to install a subset of the default OnGuard 8.1 features as described in the "Unattended Installation of OnGuard" chapter of the *Advanced Installation Guide*, the installation fails.

Resolution

Do not use the **FeatureList** parameter to install a subset of features during a silent installation of OnGuard 8.1. You must install the default OnGuard 8.1 features when performing a silent installation.

Applies To

Silent installations of OnGuard 8.1.
