How to check SQL Server authentication settings

Procedure Steps

- 1) Start Microsoft SQL Server Management Studio.
- 2) Right-click the server name and select "Properties."
- 3) Select the Security page.
- 4) Verify that Server authentication is set to **SQL Server and Windows Authentication mode**.
- 5) Verify that Login auditing is set to **Failed logins only**.
- 6) Click [OK] and exit the application.

Applies To

SQL Server (All versions)

Additional Information

None
