

Microsoft ODBC Driver for SQL Server

Last Modified on 10/06/2022 4:17 am EDT

Question

Can Microsoft ODBC Driver for SQL Server be used with an Enterprise system running OnGuard 7.3 Update 1?

Answer

Microsoft ODBC Driver for SQL Server uses TLS 1.2, which is not compatible with the Message Broker service. It cannot be used in an environment that utilizes Message Broker, such as Enterprise or OpenAccess.

Applies To

OnGuard 7.3 Update 1 (and above)

Additional Information

None
