

# Increase timeout count for database connections

Last Modified on 10/06/2022 4:17 am EDT

There is option to increase timeout count on database connection in ACS.ini file.

## Procedure Steps

1. Back up your acs.ini
2. Run notepad as administrator
3. Open acs.ini
4. Add these settings

```
[DataBase]
```

```
Timeout=600
```

## Applies To

All OnGuard Versions

## Additional Information

The default value is 60 seconds. It will increase all database connections on server/client
