Event description from Event table is not published in reports; Oracle 12c

Last Modified on 10/06/2022 4:17 am EDT

Symptom

Events description column data from Event table is not published in the reports such as "Access Denials, Grants and Other Badge Events" report.

Resolution

Remove DYSYS package from Oracle 12. The DVSYS package is an additional database vault security and auditing package which is installed by default in Oracle 12.

More details on the DYSYS package removal can be found on the following Oracle website link:

https://www.oracle.com/webfolder/community/oracle_database/4034710.html

Applies To

OnGuard and Oracle12c
