

# Enterprise: Referential Integrity Error when Saving Camera Layouts

Last Modified on 10/06/2022 4:18 am EDT

## Problem Overview

Enterprise: Referential Integrity Error when Saving Camera Layouts

## Detailed Description

If a camera layout is saved with cameras added from another Regional Server via the Camera Lookup feature, a Referential Integrity error may occur. To save a layout that generates the error, remove the cameras located on other Regional Servers from the layout prior to saving.

## Applies To

OnGuard 2010 (6.4.500)

## Additional Information

None
