Web Application Server Not Recommended with Windows XP, Windows Vista, or Windows 7

Last Modified on 10/06/2022 4:18 am EDT

Problem Overview

Web Application Server Not Recommended with Windows XP, Windows Vista, or Windows 7

Detailed Description

The Web Application Server (LS Application Server service) is not recommended with Windows XP, Windows Vista, or Windows 7. These operating systems have a limit on the number of clients that can connect to IIS.

Note: The Web Application Server can only be installed using a custom installation; it is not installed by default. If the service is installed on Windows Vista, you may experience problems when attempting to repair or uninstall OnGuard.

Applies To

OnGuard 2010 (6.4.xxx)

Additional Information

None
