How to determine the installed version of driver pack for SkyPoint recorders

Procedure Steps

1. On the recorder, go to the root installation folder:

For DVMS:
C:\Program Files\Onssi\NetDVMS

For RC-E:
C:\Program Files (x86)\OnSSI\RC-E-Recorder

For RC-C:
C:\Program Files (x86)\OnSSI\RC-C

For NetEVS:
C:\Program Files (x86)\OnSSI\NetEVS-Recorder

2. In the folder, find the **driverpackx.x.dp** file, where "x.x" is the driver pack version. For example, **driverpack3.6.dp** is driver pack version 3.6.

Applies To

SkyPoint
