

Unable to select "IE Access Control (MIFARE)" Application in Card Format Screen in System Administration

Last Modified on 10/06/2022 4:19 am EDT

Symptom

When adding a new smart card format in System Administration, the following entry may not be available in the **Application** drop-down on the Card Format form in the Card Formats folder:

IE Access Control (MIFARE)

Resolution

To resolve the issue, ensure that the following line item is enabled in the license for the site:

Integrated Engineering Access Control Support (STD)

If this line item is disabled, contact Lenel's Systems Integration group by phone at (585) 267-7726 to have the line item enabled and a new license file sent to you.

Applies To

OnGuard (All versions)

Additional Information
