Windows Server 2008: Enabling Video Export (OG-17701)

Problem Overview

Windows Server 2008: Enabling Video Export (OG-17701)

Detailed Description

To allow Windows Server 2008 to export video, complete the following steps:

Right-click My Computer and select **Manage**.

Click on **Features** in the navigation tree.

Click the **Add Features** link.

Select the **Desktop Experience** check box and click [Install].

Note: This installation requires a reboot. After Desktop Experience has been installed, export to ASF will work successfully.

Applies To

OnGuard 2009 (6.3.249) or later

Additional Information

None
