

Drop-down Fields Can Be Configured for PIV and FASC-N in FormsDesigner

Last Modified on 10/06/2022 4:20 am EDT

Problem Overview

Drop-down Fields Can Be Configured for PIV and FASC-N in FormsDesigner

Detailed Description

In FormsDesigner it is possible to specify both PIV and FASC-N configurations for drop-down fields. Only PIV *or* FASC-N should be configured, not both. Please choose one to configure. This issue will be addressed in a future release.

Applies To

OnGuard 2010 (6.4.xxx) or later

Additional Information

None
