

Visitor Management: After Adding List Builder Items, IIS Must be Restarted (DE318)

Last Modified on 10/06/2022 4:20 am EDT

Problem Overview

After Adding List Builder Items, IIS Must be Restarted (DE318)

Detailed Description

List Builder items sometimes do not appear in user-defined drop-down fields. After making changes in List Builder, it is necessary to restart IIS.

Applies To

OnGuard 2010 (All versions)

Additional Information

None
