

Visitor Management: Visitors Can Sometimes be Saved Without Filling in All Required Fields (DE393)

Last Modified on 10/06/2022 4:20 am EDT

Problem Overview

Visitor Management: Visitors Can Sometimes be Saved Without Filling in All Required Fields (DE393)

Detailed Description

If a field is required, all users should have permission to view and edit it. When a user does not have permission to view a required field (configured through the Field/Page Permission Group), it will not be visible in Visitor Management Host; however, saving a newly added visitor will be possible even though the required field is blank.

Applies To

OnGuard 2009 (6.3.249) or later

Additional Information

None
