

# Error during OnGuard 2010 installation on Windows 7: "Error 1935. An error occurred during the installation of assembly component..."

Last Modified on 10/06/2022 4:20 am EDT

## Symptom

During installation of OnGuard on a computer running Windows , the following error message might appear:

```
"Error 1935. An error occurred during the installation of assembly component
{550B5BF0-FF32-EF74-A01F-C8B3B9A1E18E}.
HRESULT: 0x80070BC9."
```

The installation fails at this point.

**Note:** The ID referenced in the error (such as **550B5BF0-FF32-EF74-A01F-C8B3B9A1E18E** shown above) might vary.

**Note:** If you burned using Roxio, you may get the message. If that happens, burn with another software or mount the ISO virtually.

**Note:** You may need to redownload the media from the PartnerCenter since the current file may be corrupt

## Resolution

To resolve this error, ensure that the Microsoft .NET Framework 3.5.1 is enabled on the computer running Windows 7:

1. Click **Start > Control Panel > Programs**, and then click **Turn Windows features on or off**.
2. In the Windows Features window, select **Microsoft .NET Framework 3.5.1**.
3. Click [OK].
4. If prompted, reboot the computer.
5. Retry the OnGuard installation.

The error message referenced in this article should no longer appear.

## Applies To

OnGuard (All versions)

## Additional Information

None
