During the installation of Onguard 6.4.500 + HF2 on Windows 7 Dutch a message popup that the Group "USERS" is not existing.

Last Modified on 10/06/2022 4:21 am EDT

Symptom

During the installation of OnGuard 6.4.500 + HF2 on a Dutch Windows 7 workstation, a message appears that says the Group "USERS" does not exist.

Resolution

For Dutch, there is group called "GEBRUIKERS," which is the Dutch translation of "USERS."
Create the group "USERS" manually to proceed with the installation.

Applies To

OnGuard (All versions)
